EXSM 3931: Web Development Foundations Project

Deadline: Sunday Aug 22, 2021 at 11:59 PM

Using everything that was taught over the duration of this course, you will now launch your own website through Google Cloud! To begin, read over the instructions very carefully and reach out for assistance or clarification on the class forums if needed.

Instructions:

1. Track your deadline and plan out mini goals for progress - be sure to leave plenty of time to reach out for help if necessary.
2. Read and follow the instructions provided on each slide of the Google Cloud slide deck carefully.
3. For ease, the following HTML has been provided for you to copy and paste for your index.html file (change '$Name' to your name):

```
<!DOCTYPE html>
<html lang="en">
<head>
 <meta charset="UTF-8">
 <meta http-equiv="X-UA-Compatible" content="IE=edge">
 <meta name="viewport" content="width=device-width, initial-scale=1.0">
 <title>My First Website!</title>
</head>
<body>
 <h1>My First Website!</h1>
 <p>
   Hello, my name is $Name, nice to meet you!
   This is my brand new website!
 </p>
</body>
</html>
```

4. When your website is up and running, copy and paste the public IP address of the website to the text submission box of the eclass assignment.
